

NOTICE OF PROPOSED SOLE SOURCE PROCUREMENT
this is not a competitive bid/proposal

The Utah Transit Authority (UTA) Procurement Policy provides that sole source procurements may be used only when the Award of a Contract is infeasible under other source selection methods, and at least one of the following circumstances applies: (a) The required goods or services are of a specialized nature requiring expertise that is only available from a single source; (b) The public exigency or emergency for the required goods or services will not permit a delay resulting from competitive solicitations; (c) After solicitations of a number of sources, competition is determined inadequate.

The UTA Purchasing Department has received a request to make the following sole source procurement:

Product and/or Service to be purchased: White Six Element Low Profile Antenna with 17' Lead. Part Number: AP-CCWWWG-BQ-S222222-RP345-WH-17

Contract Duration: Through October 31, 2020

Proposed Sole Source Supplier: Airgain

Estimated Total: \$6,425.00

Sole Source Justification: Airgain provides Utah Transit Authority with an antenna that has all the necessary elements and frequency requirements for the operation of the MG90 Mobile Gateways. What makes it unique is its low profile and large diameter. The low profile helps prevent the antenna from getting struck by objects, such as tree limbs, and getting tangled up with the Bus Wash Brushes. The large diameter of the antenna gives it a greater surface area to hold on to the Bus and helps prevent the antenna from getting ripped off causing structure damage to the Bus.
